

## 60 Second Sugar Snippet – A Pause and A Contest!

Welcome to this 60 second sugar snippet. My name is Susie Williams and this is our 30<sup>th</sup> podcast!

With the end of the summer fast approaching, the days are getting shorter and our thoughts turn from bike rides and hot days to cooler weather and a final push of heads-down serious coding. We're going to take a break from producing these snippets for a few weeks as we recharge, refresh, and retool our world for the new 5.0 release. But while we focus our efforts elsewhere for a bit, we want YOU to step in! Yes, here's your chance to produce your own 60 second Sugar Snippet and have the Sugar world hear your words of wisdom.

Here's how it works. Create your own audio or video file. Post it on YouTube or your own favorite server. Send us the link to your masterpiece and we'll review it for content, accuracy, relevance, and just plain fun. Your work should be just a couple of minutes long, and should not contain any copyrighted music or images that would prevent us from publishing it on iTunes without getting sued by some record company.

Send the link to your post to [community-contest@sugarcrm.com](mailto:community-contest@sugarcrm.com).

This contest is open to anyone! Partners, customers, friends, even employees of Sugar. We want to hear from all of you.

The winners will have their snippets featured on an upcoming podcast. Keep in mind, we're open to video entries, not just audio ones, so let your mind soar. Tell us your favorite Sugar hack, your favorite Sugar trivia question, or your favorite SugarForge project. Make a video of you and your world of Sugar. Show and tell us what you're doing with the product and give a tip that the rest of the community can use. Have some fun!

And that's your 60 second Sugar snippet. Goodbye for now!
