

Podcast Script – Did You Know?

Welcome to this sixty second Sugar snippet. My name is Susie Williams. Today we're going to talk about some interesting facts and snippets that may be news to you. All pertain to Sugar in some way, so let's get started!

Did you know that SugarCRM released its first software just about this time four years ago, on July 4th, 2004? That was just a few months after the three co-founders quit their day jobs to start the company. Since then, we've had over 4.5 million downloads of all things "Sugar" which is quite a feat!

Did you know that if you leave your Sugar instance idling for a few minutes and you're using one of the colorful Sugar "themes", something magical happens? In the Paradise theme, a sailboat sails across the water. Check it out!

Did you know that if you upgrade from Sugar Community Edition to Sugar Professional or Enterprise, we will provide upgrade conversion scripts to you so you won't lose your data? We make it easy for you to move up to the next edition of Sugar as your business grows.

Did you know that our Dublin office shares a building with rock supergroup U2, and that when they're in the studio cutting a new album, throngs of fans gather outside the building? And we thought they were just trying to get a glimpse of Sugar co-founder Clint Oram...

Did you know that we have over 500 community-driven projects on SugarForge, and over 100 items for sale on SugarExchange? There are lots of ways to extend your Sugar application to meet your needs.

Did you know that SugarCRM has many employees who are avid bicyclists, and Sugar sponsors several local bike clubs as well as some professional races? We're the title sponsor for the 2008 SugarCRM Breakaway Race series, which includes the Cats Hill Classic race in Los Gatos, California.

And finally, did you know that $C_6H_{12}O_6$ is the chemical formula for glucose, which is a type of sugar. Sugars which have 6 carbon atoms are called "hexose" sugars. Sweet!

And that's your sixty second Sugar snippet. Goodbye!
